

TrimThreads

Trimthreads.app | London, UK

Stop guessing.

Know the cut before they sit in the chair.

TrimThreads helps clients send haircut photos, fade preferences, beard notes, voice messages, and appointment inspo directly to their barber before the cut starts.

For barbers

- Cleaner consultations before the chair
- Private client link and QR station card
- Pinned style inspo, notes, and chat history

For clients

- Send photos instead of explaining under pressure
- Save previous cuts and tweak the next one
- Voice note details before the appointment
